5B. Project Scope: Describe activities and expectations of Community Health Centers

6. Project Type: Check all that apply

- A. Qualitative Data Collection (e.g., surveys, focus groups, etc.)
- B. Secondary Data Analyses (e.g., retrospective EMR data analysis)
- C. Randomized Control Trial – patients
- D. Randomized Control Trial – providers
- E. Non-identifiable voice, video, or image recordings (not all recordings are non-identifiable)
- F. Group behavior studies not involving stress and/or where subjects cannot be identified
- G. Other _____

7A. Funding: Describe proposed funding for AllianceChicago

7B. Funding: Describe proposed funding for Community Health Centers

Next Steps:

Please email your completed form and questions to research@alliancechicago.org.

AllianceChicago Leadership Team representatives will do an internal screening of your proposal and determine if the initiative aligns with AllianceChicago Network principles and priorities.

You will be notified of the internal decision within 5 business days. If approved and applicable, AllianceChicago Research Team Staff will then disseminate this form to potential community health center partners to determine interest.
